Introduction of Doudge Ball.

Dodgeball is a team sport in which players on two teams try to throw balls and hit opponents while avoiding being hit themselves. The objective of each team is to eliminate all members of the opposing team by hitting them with thrown balls, catching a ball thrown by an opponent, or inducing an opponent to commit a violation, such as stepping outside the court.

Length of game

formal matches of dodgeball are typically played until all players on one side are out. In WDBF guidelines, matches last a total of 40 minutes. These are split into two 20-minute halves, during which as many sets as possible are played. A set lasts until all players on one side are out. One point is awarded for every set won. Teams switch sides at halftime.

Rules

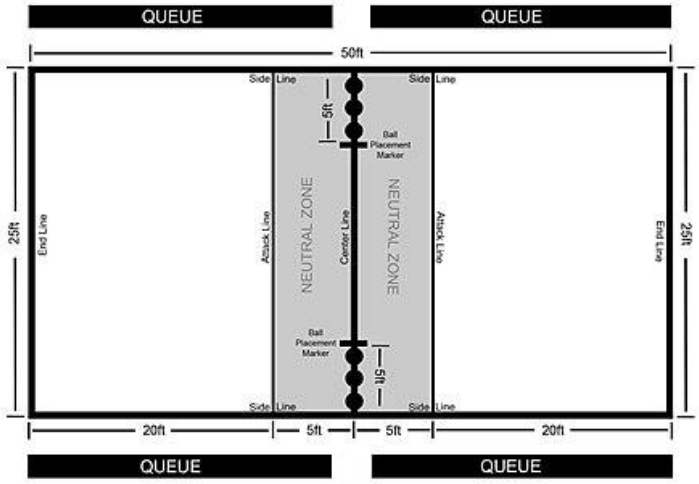

Main article: List of dodgeball variations
Optional rules may be in effect in informal games of dodgeball or in open matches by agreement:
"Head shots" (thrown balls that hit an opposing player in the head) may either result in the thrower being out, or the person being hit being out, or neither.[7][10]
In "jailball", players who are out go to "jail" behind the opponents' back line. They can return to the game if they:
Capture a dead ball, or
Capture a dead ball and throw it and hit an opponent.
In games played on a basketball court, thrown balls that hit the backboard or go into the goal (even if deflected by a player or another ball) may have special status, such as returning all eliminated teammates to the court.

When there are so few players on the court that dodging the ball is easy, "No Lines" may be declared. This means that there are no team zones; players can go anywhere on the court to get a better shot at an opponent.

Court

An example of a dodgeball court used in the Elite Dodgeball Invitational

Dodgeball can be played on any surface that has clearly marked boundaries and a center line, such as a basketball or volleyball court or fenced area. Elite Dodgeball specifies a court 50 feet (15 m) by 25 feet (7.6 m), where a zone 10 feet (3.0 m) wide at the junction of the areas is a neutral zone.
